22 March 2019

Standard Registration Deadline:

14 April 2019

COMMUNICATING FOR SAFER DIAGNOSIS

Diagnosis is difficult. Most people will experience at least one diagnostic error in their lifetime, sometimes with devastating consequences.

Language creates our experience. Diagnostic error and safety can be deeply influenced by the ways clinicians and health workers communicate.

How can we communicate for safer diagnosis?

How can health IT better support the diagnostic process?

How can clinicians better communicate with each other across healthcare silos?

How can patients, nurses and allied health better engage in the diagnostic process?

Together, how can we make the diagnostic process safer and more reliable for patients?

Join us at this exciting multidisciplinary conference which will bring together thought leaders in the growing field of diagnostic safety. Experts in clinical reasoning, medical education, cognitive psychology and medical research will join together to explore this critical topic through the lens of our communication.

PROGRAM OVERVIEW

Key sessions will be held on: Simulation, Coping with Medical Error, Cognitive biases, Testing, Expertise & Teaching Clinical Reasoning, Communication, Problems & Solutions.

Pre-conference workshops will take place on Sunday 28 April 2019. Information about the program will be added to the [conference website](#) as it becomes available.

Who should attend? Clinicians with an interest in diagnosis including Radiologists and Pathologists, Medical Educators, Researchers, Nurses, Patients, Quality Managers, Medical Administrators and Medical Students.

For more information contact the Conference Secretariat on +61 2 8204 0770 or ausdem2019@ashm.org.au.

KEYNOTE SPEAKERS

Prof Jeffrey Braithwaite

Professor of Health Systems Research, Founding Director, Australian Institute of Health Innovation, Director, Centre for Healthcare Resilience and Implementation Science, Sydney, Australia

Dr Mary Dahm

Research Fellow, Australian Institute of Health Innovation, Macquarie University, Sydney, Australia

Prof Andrea Rita Horvath

Clinical Director, Department of Clinical Chemistry and Endocrinology, Conjoint Professor, University of New South Wales, Honorary Professor, University of Sydney, Australia

Prof Jill Klein

Professorial Fellow in Medical Education, Melbourne Medical School
Professor of Marketing at Melbourne Business School, Melbourne, Australia

Prof Michelle Leech

Deputy Dean, Faculty of Medicine, Nursing & Health Sciences, Monash University, Melbourne, Australia

A/Prof Lisa Sanders

Associate Professor, Yale School of Medicine, Contributing Writer, New York Times Magazine, USA

Prof David Newman-Toker

Professor of Neurology, Ophthalmology, & Otolaryngology, Director, Division of Neuro-Visual & Vestibular Disorders, Director, Armstrong Institute Center for Diagnostic Excellence, Core Faculty, Brain Injury OutcomeS (BIOS) Clinical Trials Unit, President-Elect, Society to Improve Diagnosis in Medicine, Johns Hopkins Hospital, USA

Dr Gordon Schiff

Associate Director, Brigham and Women's Center for Patient Safety Research and Practice, Associate Professor of Medicine, Harvard Medical School, USA

Mr Greg Collette

Patient Advocate, BigDandMe Blog
